HOXSEY AND MOISANT PLUNGE FROM LOUDS

Aviation Fields at Los Angeles And New Orleans Are Scene of Accidents

John B. Moissant and Arch Hoxsey, aviators extraordinary, were killed vesterday.

Both fell out of the treacherous air with their machines and neither from a great height.

Moisant's remaining minutes of life were so few as to count as naught.

Hoxsey was killed instantly. Moisant met his death at 9:55 a. m. in attempting to alight in a field a few miles from the aviation field at New Orleans.

Hoxsey, who went into the air in the afternoon at Los Angeles, at 2:12 o'clock, lay a broken, crushed and lifeless mass in plain view of thousands who were watching the aviation tournament at that place. Thus the last day of 1910 is bringing the total number of deaths of those who have sought to fly to thirtyfro. caps the list with the most ...strous of aviators, who have been writing the history of aviation in the skies of two conti-

nents. Arch Hoxsey, who only with the week had set a worlds record for altitude of 11,474 feet, ran afoul of a shifty boiling treacherous wind when within a matter of 500 feet or so in the air, and a few minutes later a horrified crowd aroused from the shock and was rushing madly to where the broken mass of humanity lay beneath the canvas of his planes and some broken spars.

Both Moisant and Hoxsey met death in almost the same manner. Each machine was headed for earth and was seen suddenly to stop, hover in the air, then turn over onto its nose and dive headlong to the earth.

Mrs. C. M. Hoxsey, mother of the aviator of Pasadena Cal., missed by a mere accident seeing her son meet death.

Took Roosevelt as a Passenger

St. Louis, Mo., Dec. 31.-Arch

Hoxsey, who met death at Los Angeles, first sprang into fame by a Chicago-Springfield trip and by taking Theodore Rooseveltinto the clouds as a passenger in his aeroplane at the St. Louis tournament last summer.

Won Flight Around

Statue Of Liberty

New York, Dec. 31. - John B. Moisant's most daring flight probably was from the Belmont race course on Long Island around the Statue of Liberty and return. during the aviation meet here in When Baby was sick, we gave her

THE VITAL STATISTICS LAW.

The Vital Statistics Law went Into effect the first day of January. The enactment and enforcement of this law puts Kentucky in the class of progressive states regarding preventive Medicine.

This is one of the most important laws ever enacted by a General Assembly of Kentucky. It points to the conservation of our boys and girls, men and women. a strong and healthy population is a house-hold word in every state in is the first and most valuable asset of any state or nation.

Continued on Page 7

To Those Who Got No Paper This Year.

Quite a number of the subscribers to the Crittenden Record-Press have not received a paper since January 1st,

There is a reason for this. It will not be the fault of the postoffice, the mail carrier or the Crittenden Record-Press office. But it will be for other teasons.

One reason is that under the postal laws, we are not allowed to send the paper longer than nine months if it has not been renewed. The postal authorities require an affidavit from the publisher that he has no names on his list whose times have been out over nine months. The publisher of this paper cannot make such an affidavit until quite a number of names are removed from the list which has been done. So if your subsription is as much as nine months past due you may know that is the reason your paper cannot be delivered to you any longer. If you desire it you should renew without delay.

There is another reason why others will not receive their papers who are not it arrears nine months or at all. It is because we have adopted the stop-when-out system which is the only successful way to conduct a newspaper like the Crittenden Record-Press. We have no way of knowing who wants the paper sent on and who wants it stopped unless the person wanting renews before his time is out. It frequently happens that a subscriber who takes the paper for a year, pays for it and does not want it again, Is annoyed by the paper being sent on and later followed by a dun. We have numerous requests from subscribers to be sure and stop their paper when out unless they renew. Others tell us to keep on sending it. It is simply impossible for us to remember what each subscriber told us or to keep a set of books along that line. The result is confusion and frequently hard feeling.

So we have adopted the RULE to STOP the paper when the time is out. A subscriber buys a dollars worth of the Crittenden Record-Press and we shall send him a dollar's worth. If he orders a dollar's worth of sugar from his grocer, the grocer will not send him another dollar's worth without another order. So if you are behind at all in your subscription, but if your time has just expired, you may know the reason your paper does not come any more.

There is yet another class of subscribers who receive no paper. This class is not nine months or more behind, nor has their subscription just expired. It is a class between the

Some of these subscriptions have not been out long, some are nearly nine months over. due, while others range from two, three, four, five, six, seven or eight months in arrears. But in order to treat every subscriber just alike and to start the stop-when-out plan, and get the entire list on a business basis, these will fail to receive a paper also. It would not be fair or good business to stop the man's paper whose time has just expired or the man's paper who is nine months behind although he may be as good as gold and yet continue to send the man a paper who is three or six months behind. We could never put the system into operation were we to do that. We have already given two months notice that January 1, 1911, the Crittenden Record-Press would adopt that rule.

If anyone has paid and has a receipt given prior to Nov. 4. 1910, by Mr. Calmes for a year's subscription and have not had credit on the books, come in with your receipt and we'll correct the over sight.

NOW A WORD!

We want every one to continue taking the Crittenden Record-Press. We believe every fairminded man will agree that this is the only correct way that we can run the paper. We are making it better than has been. And while we announced that after January 1, the price will be \$1.50 a year, yet owing to the lack of a tobacco season and probably not all understanding the announcements fully, and in order to give all a fair chance to renew at \$1.00 who desire to, we have decided to extend time, and you can get the

Crittenden Record-Press at \$1.00 a Year by Paying all Arrears and Renewing Before February 1st.

For Sick

We know of no other medicine which has been so successful in relieving the suffering of women, or secured so many genuine testimonials, as has Lydia E. Pinkham's Vegetable Compound.

In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound. Almost every woman you meet has either been benefited by it, or knows some one who has.

In the Pinkham Laboratory at Lynn, Mass., are files containing over one million one hundred thousand letters from women seeking health, in which many openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound.

Lydia E. Pinkham's Vegetable Compound has saved many women from surgical operations.

Lydia E. Pinkham's Vegetable Compound is made exclusively from roots and herbs, and is perfectly harmless.

The reason why it is so successful is because it contains ingredients which act directly upon the female organism, restoring it to healthy and normal activity.

Thousands of unsolicited and genuine testimonials such as the following prove the efficiency of this simple remedy.

Coloma, Wisconsin. - "For three years I was roubled with female weakness, irregularities, backache and bearing down pains. I saw an advertisement of Lydia E. Pinkham's Vegetable Compound and decided to try it. After taking several bottles I found it was helping me, and I must say that I am perfectly well now and can not thank you enough for what Lydia E. Pink-ham's Vegetable Compound has done for me." — Mrs. John Wentland, R. F. D., No. 3, Box 60, Coloma, Wisconsin.

Women who are suffering from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

Odessa School Notes.

Thirty-eight came in Monday after Christmas.

Per cent of attendance based on census-63.

Per cent of attendance based on enrollment-86.

Prof. Travis, of Hoods school, gave us a call the 26th, and made the school a very encouraging talk. Thanks Mr. Travis, our latch-string hangs on the outside and our fellow teachers are invited to raise the latch and walk in, you are always welcome.

The boys of the 7th and 8th grades held a debate Tuesday evening.

The 5th grade pupils are now going over their Elementary arithmatic the second time.

The 7th grade pupils will commence reviewing the Practical arithmatic in a few days.

The 19th and 20 th, are our next review days. It will be

To our pupils: - You have only five more weeks for hard work. But you will be the better from the effort.

Another improvement. Tom Cantrel, under a contract made with the trustee, C. H. McConnell, has completed a well near the school house, covered with : substantial and neat shed. Odes sa is coming to the front.

The smallpox scare reduce the attendance of our school fo a few days, but about all ar back again in their places.

One of our teachers said to u the other day, "I am getting along very well with my school 'but oh, that chewing gum.' would be a better teacher and have a better school if it wasn' for that chewing gum." W called the class, we asked th question and answered by chew ing her gum. We repeated th question, she repeated chewing oh! my that chewing gum.

R. M. Riley, an ex-teacher stopped in as he was passing an made the school a good talk .-J. B. MCNEELY, Thanks.

Teacher

Saved at Death's Door.

The door of death seemed ready open for Murray W. Ayers, of Trans Bridge, N. Y., when his life was wo derfully saved. "I was in a dreadful condition," he writes, "my skin wa almost yellow; eyes sunken; tongt coated; emaciated from losing for pounds, growing weaker daily. Viru ent liver trouble pulling me down death in spite of doctors. Then the matchless medicine-Electric Bitte cured me. I regained the forty pounlost and now am well and strong. For all stomach, liver and kidne troubles they're supreme. 50 cents J. H. Orme and Haynes & Taylor drug stores, Marion, Ky.

James And The Committee.

The Courier Journal of Monday Jan. 14th., 1911 in commenting on Congressman James' letter to the state committee in old Record-Press. I do not want Dear Sir: - You will find en- which he plead that the people to miss a number as it is like closed money order for one dollar be allowed to select their nomigetting a letter from my dear for which you will please send nee for U. S. senator in the old Kentucky home. We are me the Record-Press. I was primary at the same time and in having some very cold weather glad to know that Mr. Jenkins the same manner which the other at present, and very dry. Wheat has got hold on our old paper candidates are nominated. has

> Ollie James puts it pointedly and forcibly to the State Committee. To an outsider he certainly seems to have the logic of the issue on his side.

The Courier Journal, not accustomed to intrude in the details of party administration, and caring not a rap what the methods of selecting party nominees may be, so that it be fair and representative of the masses of the party, has attempted to take no part in the question of a convention or primary this year. But when the committee, determining on a convention in preference to a primary for gubernatorial candidates, declined to call the primary also for senatorial candidates, the Courier-Journal commented on what appeared to be an inexpedient inconsistency. It may not have been inexpedient. The Courier-Journal is not in the secrets of the committee. It does not pretend to know the reasons which governed the Misses Maggie Moore and Ethel committee in this course. They may be good and satisfactory reasons. But if they are the public, like the Courier-Journal, large does not know it. Cannot

Mr. James seems to make a good case If the committee, The young people of the vicinity, with a word or two of explanation, can make a better, it would seem to be to the interest of everbody concerned that should do so.

The Courier Journal offers it an open mind and open columns.

WIND THAT BLOWS BLOWING YOUR WAY NOW

"I wish to say that I have used Sloan's Liniment on a lame leg that

has given me much trouble for six months. It was so bad that I couldn't walk sometimes for a week. I tried doctors' medicine and had a rubber bandage for my leg, and bought everything that I heard of, but they all did me no good, until at last I was persuaded to try Sloan's Liniment. The first application helped it, and in two weeks my leg was well."—A. L. HUNTER, of Hunter, Ala.

Good for Athletes. Mr. K. GILMAN, instructor of athletics, 417 Warren St., Rox. bury, Mass., says :- "I have used

with great success in cases of extreme fatigue after physical exertion, when an ordinary rub-down would not make any impression."

Sloan's Liniment has no equal as a remedy for Rheumatism, Neuralgia or any pain or stiffness in the muscles or joints.

Prices, 25c., 50c. & \$1.00

Sloan's book on horses, cattle, sheep and poultry sent free. Address Dr. Earl S. Sloan, Boston, Mass., U. S. A.

The Vital Statistics Law.

There has been of late much said and written in regard to the conservation of our natural resources: these are important matters and they should have the support and encouragement of every good citizen but these pale into insignificance when compared to the conserving of human life. Who can put a money value on human life? It matters not how insignificant that life may appear to the community. Think of the lives that are wantonly sacrificed each year in our own commuity. Think then what it amounts to when we consider every community in our state and nation.

The Doctors of our country have known for years that untold thousands of lives are sacrificed each year. They have been working all these years to enlighten the laity upon the vital importance of preventive medicine. The "Old Time Physician" had done their duty when they visited the sick and gave them pills and powders, they did the best they could under the state medical knowledge in their time and God bless them, they laid the foundation upon which medical science is builded; but if we did not do better than they did, the community in which we live would be better off without us.

The Public Health and Marine Hospital service of the United States government is doing a great work in conserving human life. The Pure Food and Drug Laws of the nation and various states are valuable assets to this conservation, and they are the fruits of medical organization.

The doctors are standing together as one great army in our National and State Association to urge proper legislation and enforce laws for the prevention of sickness and death.

Many philanthropic organizations of laymen are exerting every influence possible to prevent sickness and death. The laymen is beginning as never before to seek knowledge along lines medical. is asking his family physician what he can do to keep well and to preserve the health of his family.

The State Board of Health and the State Medical Association went before the Kentucky Legislature and urged upon them the importance of a Vital Statistics Law, and other needed medical legislation, and it is to the everlasting credit of the last Legislature that they enacted into law every bill that was 'pushed by the Medical Men of Kentucky.' And the members of the last Legislature willever have a 'Warm Place' in the hearts of the Doctors of our state.

Tuberculosis [Consumption], Typhoid Fever, Diphtheria, Scarlet Fever, Dysentery, Cholera-Infantum, and many other diseases are preventable. Every death from these and several other diseases is a life wasted: a leved one sacrificed on the altar of ignorance and indifference Seventy five per cent of the deaths in infancy should be prevented. This should be a personal matter with us. We should ask ourselves the question, 'what are we doing to save the lives of others?' We should feel that we were not worthy the name of 'Man or Woman' if we were to stand idly by and see a moving train crush the life out of a helpless person and not make an effort to save them; then let us upon the same principle make an effort to save our own families, our neighbors and our fellowcreatures.

The United States Government takes the census every ten years to see how many people we have, to see what our natural resources are, to compile the statistics of our cities, of our towns and rural districts, in other words Uncle Sam takes his inventory every ten years; it costs millions of dollars to do this yet it pays. The successful merchant takes an inventory the first of each year to see where he stands, to see if his business has been a success and upon the information obtained by this inventory he lays his plans for future business. The average man can better comprehend a proposition if it has money value, yet, who can estimate the value of his own or a member of his family's life?

The Vital Statistics Law, in Kentucky, requires the Doctors of the State to report births within ten days and to make death certificates immediately after the death occurs. The time and place must be included in this certificate but most important is the cause, also data in regard to the personal and family history. The State furnishes the blanks on which the reports are made. forms are those adopted by the United States Bureau of Statistics.

It is unlawful to bury anyone without a permit from the local Registrar. There is a Registrar in each voting precinct in the County except the five Marion precincts, they are for convenience placed under the control of one Registrar. It is the duty of the undertaker to secure certain data from the family of the deceased or some other suitable informant, then to secure the certificate of the attending physician and present this to the local Registrar who issues the burial permit. For convenience any local Registrar can act as Sub-Registrar for any Registrar in his or adjoining county. The burial permit is given to the Sexton or any one in charge of the cemetery or burying ground to be preserved. Each birth and death certificate is forwarded to Dr. W. L. Heizer, Superintendent of Vital Statistics, Bowling Green, Kentucky, and they are there preserved in a fire proof vault for 300 Pictures Every future reference.

These certificates are the legal records of births and deaths, which in the future will be of untold value to the Citizens of the State in establishing proof of births and deaths, in the settlements of wards and guardians, to determine the age for holding office, voting, jury service, military service, entering professions, liability under Child Labor Laws, age of consent, irresponsibility for crimes and various other things.

The death certificates will show the cause of deaths; the numbers of lives wasted by preventable diseases, will give us a better understanding of our responsibility as citizens, will make us more anxious to help others, in other words the Superintendent of Vital Statistics can make an inventory at the first of each year, which will give the State Board of Health and the local Health officers a basis upon which to lay their plans for the work of conserving the lives of our citizens.

Now let us work together to put this law into effort without friction and have it carred out to the letter and at the beginning of next year every good citizen will be glad to take up a little pamphlet and see how many births there have been in Crittenden county, how many little boys and girls have come to gladden the homes of our people, we can also see how many deaths there have been and how many of these should have been prevented.

T. ATCHISON FRAZER,

Health Officer.

The following are the names of the local Registrars for Crittenden county and the territory each has been assigned to.

Miss Leaffa Wilborn, Voting Precincts Nos. 1, 2, 3, 4, 5. Address Marion.
